

## ERGO baby Sport Carrier

The [ERGO baby Sport Carrier](#) is perfect for the parents with an active lifestyle. It's lightweight, breathable and ergonomically designed to bring comfort to both your baby and you.

Baby carriers are very popular because they allow you to stay close to and bond with your baby as well as remain hands free. The [ERGO baby carriers](#) have always been popular with parents because their design helps to reduce back and shoulder stress as well as reducing hip and spinal compression on the child you are carrying. The stylish design and array of features make the ERGO baby Sport Carrier the perfect carrier for all occasions and seasons. Not only is it designed to fit a wider array of body types and heights, the adjustable waist and shoulder straps allow you to fit it over bulkier clothing in the cold weather, then slim it down during warmer weather.

The lighter weight 65% polyester / 35% cotton fabric with vent is more breathable than your typical baby carrier and offers a bit of wicking, making it much more comfortable for you and your baby during the warmer months. The carrier also features high-density foam shoulder straps, cotton poplin lining, and neoprene foam in the waist belt and hood.

The [ERGO baby Sport Carrier's](#) gender-neutral look is a perfect pick for both Moms and Dads. It's durable and can be used with babies and toddlers up to 40 lbs. Depending on your child's age and your activity, the flexible carrier can also be worn in the front or backpack style. The ERGO baby Sport Carrier is a great investment that will become a "how did I ever live without it?" item that you will recommend to all your friends.
